

amici::Model::fsigmay

amici::Model::fdsigmaydp

isSetObservedDataStdDev

```
graph LR; A[amici::Model::fsigmay] --> C[isSetObservedDataStdDev]; B[amici::Model::fdsigmaydp] --> C;
```

The diagram illustrates a relationship where two distinct inputs, 'amici::Model::fsigmay' and 'amici::Model::fdsigmaydp', both point to a single output, 'isSetObservedDataStdDev'. The input boxes are white with black borders, while the output box is shaded gray with a black border. Blue arrows indicate the direction of the flow from the inputs to the output.
