

amici::SteadystateProblem
::applyNewtonsMethod

```
graph LR; A["amici::SteadystateProblem  
::applyNewtonsMethod"] --> B["getStep"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'amici::SteadystateProblem' on the first line and '::applyNewtonsMethod' on the second line. The right box is gray with a black border and contains the text 'getStep'. A dark blue arrow points from the right side of the left box to the left side of the right box.

getStep
